NEW TO OUR RANGE FOR 2021

NEW - COVID-19 Visitor Cabin

COVID VISITOR CABIN

- > Unit 20' x 8'
- > Two separate rooms with external entrance doors 1000mm
- > Four external double glazed windows
- > Central viewing panels with intercom
- > Lights and heating

As UK agents for Containex, we are delighted to be able to offer this new modular unit to our range of products manufactured in Europe.

With the continuing issue around safety from Covid-19 infections and the desire of your residents and their family and friends to see each other, this provides the perfect solution.

ADVANTAGES

- Keeps both residents and visitors separate from one another but with a good view to communicate through the central glazed viewing panels
- Intercom communication system for easy communication
- Four fully opening double glazed windows providing fresh airflow into the unit
- External shutters for windows for privacy
- Internal electrical lighting and heating for a comfortable experience
- Two separate entrance doors each 1,000mm providing separate independent access into the unit to give users assurance during visits

Price Guide £9,950 +VAT

* Price is for supply only and does not include haulage and installation
